<b>CONTACT NUMBER</b>	+32 (0) 473 74 52 73
<b>POSTAL ADDRESS</b>	Wingepark 41 3110 Rotselaar Belgium BE0 683 783 385
<b>TITLE OF PRESENTATION</b>	<b>Launch of the new “OK renewable carbon” _certification scheme</b>
<b>ABSTRACT</b>	In cooperation with NOVA and the Renewable Carbon Initiative, TÜV AUSTRIA has developed a new certification scheme to quantify and certify the renewable carbon content of products combining components/constituents derived from biomass, recycling and/or CO2 capture. Philippe Dewolfs will present the latest developments in the certification scheme and officially launch it at the RMC in Siegburg. He will also emphasise the added value of a certification body in this field.
